Working at EPAM means endless opportunities for progression, a supportive work environment, and working on impactful projects for some of the most distinguished brands around the world. We recognize that our people are the source of our success, and we are committed to helping them achieve all their professional aspirations. If you are looking for a place where you can truly thrive, EPAM is the place for you – connect with a recruiter today!

#### RESPONSIBILITIES

- Provide support to customers using Cloud Platform products, solutions and APIs, including Big Data and related services
- Provide technical assistance and support as part of a global 24x7-support organization
- Work closely with engineers and product managers to improve the product and make our customers successful
- Change requests and incident ticket handling for the remaining Infrastructure Teams - Incident Management, Problem Management and Change Management
- Provide technical and developer support to customers using Cloud Platform products, solutions and APIs
- Follow notification and escalation procedures
- Follow standards for communications with business involving operational issues
- Identify and document product bugs and feature requests and work with internal support teams as well as customers to implement effective solutions
- Work closely with internal support teams to improve cloud products at a senior level

#### REQUIREMENTS

- 4+ years of experience involved with projects where big amounts of data processing are imperative
- Proficient in Java and/or Python programming language
- Google Cloud Platform experience is ideal
- Experience working with at least one Big Data technology (Hadoop, MapReduce, HDFS...)
- Knowledge on NoSQL databases and big data querying tools like Pig, Hive, Impala
- Good understanding on distributed computing principles
- Experience troubleshooting and solving complex technical problems
- Familiarity with web protocols (HTTP, TLS/SSL etc.)
- Upper-Intermediate/Advanced English level (B2/C1)

## OUR OFFER

- Career plan and real growth opportunities
- International Mobility Plan within 25+ countries
- Constant training, mentoring, online corporate courses, eLearning and more.
- English classes with certified teacher
- Support for employee's initiatives and communities (Algorithms club, toastmasters, agile club and more)
- Flexible work schedule and dress code
- Remote (Home-Office), semi-remote (Hybrid), on-site, working models
- Collaborate in a multicultural environment and share best practices from around the globe
- Hired directly by EPAM & 100% under payroll
- Law benefits (IMSS, INFONAVIT, 30 days December bonus, 25% vacation bonus)
- Major medical expenses insurance Life, Major medical expenses with dental & visual coverage. (For the employee and direct family members)
- 13 % employee savings fund or capped to the law limit
- Grocery coupons
- 10 vacations days plus 2 floating days
- Official Mexican holidays, plus two extra holidays (December 24 & 31)

## ABOUT EPAM

Since 1993, EPAM Systems, Inc. (NYSE: EPAM) has leveraged its software engineering expertise to become a leading global product development, digital platform engineering, and top digital and product design agency. Through its 'Engineering DNA' and innovative strategy, consulting, and design capabilities, EPAM works in collaboration with its customers to deliver next-gen solutions that turn complex business challenges into real business outcomes. EPAM's global teams serve customers in more than 35 countries across North America, Europe, Asia and Australia. As a recognized market leader in multiple categories among top global independent research agencies, EPAM was one of only four technology companies to appear on Forbes 25 Fastest Growing Public Tech Companies list every year of publication since 2013 and ranked as the top IT services company on Fortune's 100 Fastest-Growing Companies list in 2019 and 2020.
