<epam>

(REMOTE POSITIONS)

## DATA CONSULTANT

Striving for excellence is in our DNA. Since 1993, we have been helping the world's leading companies imagine, design, engineer, and deliver software and digital experiences that change the world. We are more than just specialists; we are experts.

EPAM is committed to providing our global team of 58,800+ EPAMers with inspiring careers from day one. EPAMers lead with passion and honesty and think creatively. Our people are the source of our success and we value collaboration, try to always understand our customers' business, and strive for the highest standards of excellence. In today's new market conditions, we continue to support the operations for hundreds of clients around the world remotely, with many of our teams working from home. No matter where you are located, you will join a dedicated, diverse community that will help you discover your fullest potential.

**No less important is the safety, well-being, and experience of our applicants. Therefore, until further notice, all EPAM employment interviews will be conducted remotely. Our recruitment professionals and hiring managers are ready to ensure you have a robust and engaging virtual candidate experience. We look forward to speaking with you!**

## JOB DESCRIPTION

**EPAM Data Practice is looking for a Data Consultant, who can help our customers create information strategies, design best-in-class data platforms, and support data-driven transformation of customer enterprises. We are passionate about delivering value from data and are searching for people with the same mindset to join our team.**

## REQUIREMENTS

- **5+ years of total experience in data and analytics domain, 2+ years on project/program leading roles**
- **Experience in working with senior business and IT stakeholders, as well as end-users**
- **Solid knowledge of the data and analytics landscape and recent trends**
- **Experience in end-to-end data and analytics project delivery as part of the team (for example, data lake, DWH, advanced analytics solutions, BI/reporting, etc.)**
- **Ability to take ownership for the end result, and to manage others to get there**
- **Excellent communication skills. Ability to manage customer expectations, present and explain project deliverables to senior stakeholders**
- **English level: C1+**

## NICE TO HAVE

- **In-depth knowledge and hands-on experience with one or more data and analytics technologies**
- **Knowledge of one or more business domains**
- **Experience building data and analytics organizations (center of excellence, data engineering pools, data science teams, etc.)**
- **Experience running on-site customer workshops**
- **Experience in pre-sales activities**

## RESPONSIBILITIES

- **Manage consulting engagements, overall delivery and the quality of the output**
- **Build and manage customer relationships**
- **Plan required elicitation/discovery activities to engage both business and IT stakeholders**
- **Design and drive stakeholder workshops/interviews to define and prioritize their strategic and immediate needs**
- **Own and actively contribute to the project consulting deliverables, such as vision statements, assessment deck, roadmaps, etc**
- **Work in close collaboration with Solution Architects and Technical Leads to design the architecture that should address strategic business needs, assessing options**
- **Drive presale activities**
- **Contribute to data competency best practice materials. Mentor others**

## WE OFFER

- We believe that the greatest strength of the company is its people. EPAM is fully committed to help its employees to reach their full potential and achieve their professional goals through continues learning. With this in mind, we would like to introduce to you few of the many opportunities and services which we believe will help you expand your current knowledge
- Full access to cutting-edge tools and technologies
- Competitive compensation depending on experience and skills
- All-around Social package: professional & soft skills training, medical & family care programs, sports
- Relocation opportunities
- Free English classes
- Unlimited access to LinkedIn learning solutions
- Continuous experience exchange with experts and professionals worldwide
- Friendly team and comfortable working environment
- Engineering, corporate, and social events within and outside the Company
- Flexible working schedule
- Opportunities for self-realization
