## (REMOTE POSITIONS)

## DATA SCIENTIST

Striving for excellence is in our DNA. Since 1993, we have been helping the world's leading companies imagine, design, engineer, and deliver software and digital experiences that change the world. We are more than just specialists; we are experts.

EPAM is committed to providing our global team of 61,600+ EPAMers with inspiring careers from day one. EPAMers lead with passion and honesty and think creatively. Our people are the source of our success and we value collaboration, try to always understand our customers' business, and strive for the highest standards of excellence. In today's new market conditions, we continue to support the operations for hundreds of clients around the world remotely, with many of our teams working from home. No matter where you are located, you will join a dedicated, diverse community that will help you discover your fullest potential.

**No less important is the safety, well-being, and experience of our applicants. Therefore, until further notice, all EPAM employment interviews will be conducted remotely. Our recruitment professionals and hiring managers are ready to ensure you have a robust and engaging virtual candidate experience. We look forward to speaking with you!**
