(REMOTE POSITIONS)

CLOUD DEVOPS AND INFRASTRUCTURE ENGINEER

Striving for excellence is in our DNA. Since 1993, we have been helping the world's leading companies imagine, design, engineer, and deliver software and digital experiences that change the world. We are more than just specialists; we are experts.

EPAM is committed to providing our global team of 61,600+ EPAMers with inspiring careers from day one. EPAMers lead with passion and honesty and think creatively. Our people are the source of our success and we value collaboration, try to always understand our customers' business, and strive for the highest standards of excellence. In today's new market conditions, we continue to support the operations for hundreds of clients around the world remotely, with many of our teams working from home. No matter where you are located, you will join a dedicated, diverse community that will help you discover your fullest potential.

No less important is the safety, well-being, and experience of our applicants. Therefore, until further notice, all EPAM employment interviews will be conducted remotely. Our recruitment professionals and hiring managers are ready to ensure you have a robust and engaging virtual candidate experience. We look forward to speaking with you!

JOB DESCRIPTION

We are looking for a Cloud DevOps & Infrastructure Engineer for AWS Solution Practice team to work with EPAM strategic clients.

RESPONSIBILITIES

- **Act as the trusted technical advisor for the clients to resolve complex AWS Infrastructure and DevOps challenges**
- **Communicate effectively via video conferencing for meetings, technical reviews and onsite delivery activities**
- **Ability to travel 30% of the time as required**

REQUIREMENTS:

- **AWS DevOps Professional certification, or equivalent experience**
- **Bachelor's degree in Computer Science, Mathematics, related technical field or equivalent practical experience**
- **Experience in writing software in one or more languages, such as Java, Python, Go, JavaScript, C++ or similar**
- **Experience using cloud platform enablement technologies tools such as Terraform and CloudFormation**
- **Experience maintaining internet facing production-grade applications in virtualized environments (cloud computing platforms and services)**
- **Experience managing internal or client-facing projects, troubleshooting clients' technical issues and working with engineering, sales and services teams and customers**
- **Ability to travel 30% of the time as required**

NICE TO HAVE:

- **In-depth experience with the major cloud providers**
- **Experience with scalable networking technologies such as Load Balancers/Firewalls and web standards (REST APIs, web security mechanisms)**
- **Experience with containerization, artifact repository, and orchestration technologies (such as Docker, Helm, Kubernetes, Mesos)**
- **Hands-on experience with deployment technologies (such as Puppet, Chef, Salt, Ansible)**
- **Understanding of open source server software (such as NGINX, RabbitMQ, Redis, Elasticsearch)**
- **Familiarity with IT security best practices such as encryption, certificates, and key management**
- **Experience with migrations from on-prem or GCP / Azure to AWS**
- **Strong problem-solving and communication skills to lead change and adoption of new technologies**

WE OFFER

- **We believe that the greatest strength of the company is its people. EPAM is fully committed to help its employees to reach their full potential and achieve their professional goals through continues learning. With this in mind, we would like to introduce to you few of the many opportunities and services which we believe will help you expand your current knowledge**
- **Full access to cutting-edge tools and technologies**
- **Competitive compensation depending on experience and skills**
- **All-around Social package: professional & soft skills training, medical & family care programs, sports**
- **Relocation opportunities**
- **Free English classes**
- **Unlimited access to LinkedIn learning solutions**
- **Continuous experience exchange with experts and professionals worldwide**
- **Friendly team and comfortable working environment**
- **Engineering, corporate, and social events within and outside the Company**
- **Flexible working schedule**
- **Opportunities for self-realization**
