

# HIRING

<epam>

(REMOTE POSITIONS)

## SENIOR GCP DEVOPS ENGINEER

Striving for excellence is in our DNA. Since 1993, we have been helping the world's leading companies imagine, design, engineer, and deliver software and digital experiences that change the world. We are more than just specialists; we are experts.

EPAM is committed to providing our global team of 61,600+ EPAMers with inspiring careers from day one. EPAMers lead with passion and honesty and think creatively. Our people are the source of our success and we value collaboration, try to always understand our customers' business, and strive for the highest standards of excellence. In today's new market conditions, we continue to support the operations for hundreds of clients around the world remotely, with many of our teams working from home. No matter where you are located, you will join a dedicated, diverse community that will help you discover your fullest potential.

**No less important is the safety, well-being, and experience of our applicants. Therefore, until further notice, all EPAM employment interviews will be conducted remotely. Our recruitment professionals and hiring managers are ready to ensure you have a robust and engaging virtual candidate experience. We look forward to speaking with you!**

## JOB DESCRIPTION

**We are looking for a Senior GCP DevOps Engineer to join our team in Romania. Our client is a global data, analytics, and technology company which blends unique data, analytics, and technology with a passion for serving customers globally, to create insights that power decisions to move people forward.**

## RESPONSIBILITIES

- Collaborate with application development teams on their CI/CD pipelines
- Be an Automation Evangelist - evangelize automating processes wherever feasible to increase agility and improve quality
- Assist with the development of the Cloud Infrastructure DevOps pipeline to automate deployment of GCP infrastructure to ensure standardized, highly available, and secure solutions
- Engage additional teams (Security, Network, etc.) as appropriate and lead through resolution of issues

## REQUIREMENTS:

- Vast experience in building hybrid CI/CD models
- Technical background in Jenkins, Nexus, Java Spring Boot, Container Registry
- Experience in infrastructure automation using Terraform
- Required expertise in Helm, specifically knowledge of ways how to secure Helm
- Proficiency in source control solutions such as Bitbucket
- Experience in applications' deployment on Kubernetes engine (GKE)
- Ability to create Docker images and deploy applications
- Familiarity with quality controls within CI/CD pipelines and experience in configuring Fortify, SonarQube tools into the process
- Excellent problem-solving skills, including the ability to analyze situations, identify existing or potential problems, and recommend sound conclusions and implementation strategies
- Good command of both verbal and written English (Intermediate or higher level)

## NICE TO HAVE

- Project technology and tools:
  - AWS / GCP
  - Terraform
  - Kubernetes / GKE / Helm
  - Jenkins
  - Bitbucket

## WE OFFER

- We believe that the greatest strength of the company is its people. EPAM is fully committed to help its employees to reach their full potential and achieve their professional goals through continues learning. With this in mind, we would like to introduce to you few of the many opportunities and services which we believe will help you expand your current knowledge
- Full access to cutting-edge tools and technologies

- **Competitive compensation depending on experience and skills**
- **All-around Social package: professional & soft skills training, medical & family care programs, sports**
- **Relocation opportunities**
- **Free English classes**
- **Unlimited access to LinkedIn learning solutions**
- **Continuous experience exchange with experts and professionals worldwide**
- **Friendly team and comfortable working environment**
- **Engineering, corporate, and social events within and outside the Company**
- **Flexible working schedule**
- **Opportunities for self-realization**

## HOW TO APPLY

If you are interested in the above-mentioned position, please send a detailed CV (in English) referring to the position to: [mkt\\_ro@epam.com](mailto:mkt_ro@epam.com)
