

# HIRING

<epam>

(REMOTE POSITIONS)

## SYSTEMS ARCHITECT WITH AZURE

Striving for excellence is in our DNA. Since 1993, we have been helping the world's leading companies imagine, design, engineer, and deliver software and digital experiences that change the world. We are more than just specialists; we are experts.

EPAM is committed to providing our global team of 61,600+ EPAMers with inspiring careers from day one. EPAMers lead with passion and honesty and think creatively. Our people are the source of our success and we value collaboration, try to always understand our customers' business, and strive for the highest standards of excellence. In today's new market conditions, we continue to support the operations for hundreds of clients around the world remotely, with many of our teams working from home. No matter where you are located, you will join a dedicated, diverse community that will help you discover your fullest potential.

**No less important is the safety, well-being, and experience of our applicants. Therefore, until further notice, all EPAM employment interviews will be conducted remotely. Our recruitment professionals and hiring managers are ready to ensure you have a robust and engaging virtual candidate experience. We look forward to speaking with you!**

## JOB DESCRIPTION

**Currently we are searching for a Systems Architect to join our Engineering team. The project team is responsible for delivering customer solutions on multiple platforms that are responsive, scalable, and of the highest quality. We use the Agile development process, and value employees who foster collaboration between team members.**

**On this role, you will be expected to have strong background in designing and maintaining scalable enterprise systems deployed to AZURE.**

## **RESPONSIBILITIES**

- **Monitor existing processes, infrastructure and services, analyze their effectiveness and create strategies to improve productivity and efficiency:**
  - **Carry out associated responsibilities for all services delivered by EPAM**
  - **Improve monitoring and telemetry (New Relic, Logz.io, Grafana, AZURE)**
- **Manage quality assurance programs:**
  - **Establish functional tests in production (e.g. New Relic Synthetics)**
  - **Design customer service policies, SLAs and OLAs related to the company's products and services**
  - **Manage Product Quality reports**
  - **Drive automated performance testing and reporting (Cucumber, TestCafe, WebDriver, ReportPortal)**
- **Manage all technical and operational aspects in day-to-day delivery of products with full development lifecycle:**
  - **Drive improvements of operations and CI/CD (Jenkins, Terraform, Ansible, Helm, Flux)**
  - **Drive improvements of development, utilizing Atlassian stack (including Service Desk and Bitbucket), Stoplight, Mixpanel, Ambassador, Node.js, Koa, Angular**
  - **Manage cloud services**
- **Supervise and develop training programs for other team members**

## **REQUIREMENTS:**

- **7+ years' experience in hands-on development of solutions of different nature (web applications, web services, desktop applications, native mobile applications) in AZURE Cloud**
- **5+ years' experience in development of relational and non-relational data storages**
- **3+ years' experience in project management and direct customer communication**
- **Strong system administration background**
- **Profound experience in AZURE infrastructure and deep familiarity with its feature set**
- **Deep expertise in configuration management systems (preferably Ansible)**
- **Proficiency in Continuous Integration and Continuous Delivery design**
- **Strong experience with Docker containerization**
- **In-depth practical knowledge of Kubernetes**
- **Experience in Terraform**
- **Experience in AZURE server-less stack**
- **Familiarity with logs and monitoring systems**

- **Leadership and communications skills:**
  - **Proactive approach and leadership in architecture engagement**
  - **Experience in customer site assignments**
  - **Excellent general communication skills**
  - **Ability to communicate information to customer representatives, listen and manage their concerns**
  - **Ability to read context and people**
  - **Fluent English level**

## WE OFFER

- **We believe that the greatest strength of the company is its people. EPAM is fully committed to help its employees to reach their full potential and achieve their professional goals through continues learning. With this in mind, we would like to introduce to you few of the many opportunities and services which we believe will help you expand your current knowledge**
- **Full access to cutting-edge tools and technologies**
- **Competitive compensation depending on experience and skills**
- **All-around Social package: professional & soft skills training, medical & family care programs, sports**
- **Relocation opportunities**
- **Free English classes**
- **Unlimited access to LinkedIn learning solutions**
- **Continuous experience exchange with experts and professionals worldwide**
- **Friendly team and comfortable working environment**
- **Engineering, corporate, and social events within and outside the Company**
- **Flexible working schedule**
- **Opportunities for self-realization**
