(REMOTE POSITIONS)

Java Developer (Mid-level, Senior, Lead)

Striving for excellence is in our DNA. Since 1993, we have been helping the world's leading companies imagine, design, engineer, and deliver software and digital experiences that change the world. We are more than just specialists; we are experts.

EPAM is committed to providing our global team of 47,850+ EPAMers with inspiring careers from day one. EPAMers lead with passion and honesty and think creatively. Our people are the source of our success and we value collaboration, try to always understand our customers' business, and strive for the highest standards of excellence. In today's new market conditions, we continue to support the operations for hundreds of clients around the world remotely, with many of our teams working from home. No matter where you are located, you will join a dedicated, diverse community that will help you discover your fullest potential.

No less important is the safety, well-being, and experience of our applicants. Therefore, until further notice, all EPAM employment interviews will be conducted remotely. Our recruitment professionals and hiring managers are ready to ensure you have a robust and engaging virtual candidate experience. We look forward to speaking with you!

JOB DESCRIPTION

We are looking for **Mid-level/Senior/Lead Java Engineers**, working to move client facing systems to new technology stack in cloud based on microservices architecture. Solution is designed to cater for all customers across all locations in Europe and provision further expansion to new countries as a 'digital first' bank. As part of this initiative a whole new set of APIs are being developed to support new pan-European mobile app and Online Web banking experience that is dependent on new APIs.

Java API development team to create a set of APIs for client facing application to consume (Mobile, web online, chatbots, etc.):

- Account Servicing
- Authentication and authorization
- Cards Servicing
- Credential Management
- Customer Servicing
- Mortgages
- Payment Servicing

RESPONSIBILITIES for Mid-level/Senior Developer
