CAPACITY

OUR CROSS-INDUSTRY CAPABILITIES

EPAM's experience across a variety of industries allows us to create meaningful, engaging and immersive experiences for our clients and their customers.

TRAINING & EDUCATION

- Efficient learning & reduction in errors
- Increase in knowledge retention
- Occupational safety through collaborative simulation training and in-context messaging

REPAIR, MAINTENANCE & REMOTE MONITORING

- Hands-free repairs & decrease in service resolution time
- Faster troubleshooting guidance
- Improvement of performance of less qualified field staff through over-the-shoulder guidance

PRODUCT DESIGN & MODELING

- Complex mixed data visualization
- 3D design exploration
- Simplified building information modeling and CAD drawing markups

HEALTHCARE & WELLNESS

- Improvement in patient focus, wellness & performance through immersive experience
- Accelerated training for surgeons
- 3D medical procedures visualization
- Improved anxiety & stress management

OPERATIONS & LOGISTICS

- Decreased production time & cost savings through reduction of error rates
- Transportation, warehousing & route optimization
- Accelerated assembly of complex devices

TRANSACTIONS & eCOMMERCE

- Device-agnostic immersive store experiences
- Virtual shopping
- Virtual try-on
