

# EPAM Digital Research Lab

## MAKE THE LEAP FROM ELECTRONIC TO DIGITAL IN YOUR RESEARCH LABORATORY

In a truly digital research lab, processes are governed by data, outcomes are optimized through simulations, and actionable insights are consistently generated to speed the development of drugs and therapies. At EPAM, we leverage our 20+ years of experience in life sciences informatics to help clients not only digitalize their research labs, but also ensure that the highest cybersecurity standards are in place to protect data assets and prevent malicious attacks.

We use a proven, cloud-enabled approach to deliver innovation within your lab environment, tailoring informatics solutions to meet your goals around data capture, analysis, and management. We have real expertise in every stage of the drug discovery lifecycle, enabling us to craft a holistic digital platform to support the research lab of the future. Here's how we can help:

### DIGITALIZING LABORATORY PROCESSES

## HOW TO GET STARTED

Are you ready to digitalize your research laboratory with cutting-edge technology? Contact us today to schedule a free consultation and learn the benefits of partnering with EPAM.
