

EPAM + MICROSOFT:

Your Path to Application Modernization

**EPAM IS A GOLD CERTIFIED
MICROSOFT PARTNER**

Together, EPAM and Microsoft make legacy systems more agile and efficient using intelligent automation, specialized cloud enablement offerings and global delivery capabilities. Since 2004, EPAM's collaboration with Microsoft has helped our customers accelerate their journey to Azure by planning and architecting a strategy to execute Azure migrations at scale without compromising quality.

Our multidisciplinary teams combine industry expertise with design thinking, world-class engineering, modern operations practices and knowledge of leading Microsoft tools and frameworks to optimize the performance of your business.
