[Learn more about our Leadership Team](#)
We help our customers thrive in a market challenged by the pressures of digitization. Our diverse, integrated consulting teams apply a Systems Thinking mindset to get to the heart of our clients’ increasingly complex business challenges.

Our business, experience, technology and data consultants work together to create holistic solutions that achieve meaningful, sustained impact for businesses, their employees and customers.

Over the past 28 years, we have helped our customers navigate the waves of digital transformation, building solutions that help them level the playing field and stay competitive through constant market disruption.

**WHAT WE DO**

**CONSULT**—We harness the power of our integrated consulting talent, alongside our data expertise, to work out where we can provide value and address your unique needs.

**DESIGN**—Our talented designers bring your ideas to life. They know how to humanize technology and business to create meaningful, multimodal digital experiences.

**ENGINEER**—We make technology transformation happen. You get omni-channel software platforms architected for the future and built to scale.

**OPERATE**—We deploy commercial software product practices to deliver next-generation, integrated and smart-run services.

**OPTIMIZE**—We turn process optimization into platforms for innovation through data-driven decisions, using a product-centric approach.
As consultants, designers, architects, engineers and trainers, we focus on building long-term partnerships with our customers, enabling them to reimagine their businesses through a digital lens.

We help our customers become faster, more agile and more adaptive enterprises, by delivering solutions through best-in-class engineering, strategy, design, consulting, education and innovation services.

Our industry expertise includes:

- Automotive & Manufacturing
- Retail & Distribution
- Media, Entertainment & Telecom
- Energy & Utilities
- Life Sciences
- Travel & Hospitality
- Business Information Services
- Healthcare
- Software & Hi-Tech
- Financial Services
- Insurance
- And other emerging sectors

Using our software engineering heritage as a foundation, we continue to disrupt ourselves by deepening our technology expertise and adding strategic business and innovation consulting, design thinking, and physical-digital capabilities to provide business value through human-centric innovation.

HISTORY

1993
EPAM opens for business with three employees

1996
EPAM is chosen to help Colgate-Palmolive develop a Salesforce Automation solution and deploy it across its organizations in Europe and Latin America

1997

Our Customers

EPAM continues to expand its end-to-end service offerings—supported by our strategic acquisitions and ongoing investments in our people, platforms and geographies.

HERE ARE JUST A FEW EXAMPLES OF OUR RECENT SUCCESS STORIES:

Our Digital Learning program was recognized with a 2020 Daimler Supplier Award in Innovation.

Helped Liberty Global deliver a personalized viewing experience to their consumers by implementing Agile methodologies via set-top box and mobile app.

Enabled Wolters Kluwer to deliver a better risk management and compliance experience for its healthcare practice through a platform that retrieves and organizes actionable data.

Recognized in partnership with Eli Lilly as the Data Strategy winner at the Bio IT Innovative Practices Awards for the Research Data Program.

Received the Banking Technology Award for Best Use of IT Private Banking/Wealth Management with UBS for the development of UBS SmartWealth, a digital wealth management tool.

Won the Sitecore Ultimate Experience Award for Best Innovation with Emerging Technology for shifting the exclusive location-based organization to a digital future.

Designed a holistic future state vision for Jamba and then made their digital touchpoints real.

Created an award-winning DevOps Automation Platform for Bacardi to improve brand consistency, accelerate time to market, and deliver operational cost savings.

EPAM Continuum, the integrated business, experience and technology consulting service brand of EPAM Systems, applies a Systems Thinking mindset to help solve our clients’ most complex problems, develop their agility to adapt, and empower them to compete.

We believe the right solutions are the ones that improve people’s lives and fuel competitive advantage. We don’t just create blueprints, operating models and business plans—our thinking lives in code, products and in market. We make it real.

Learn how we help our clients drive competitive transformation through our unique mix of integrated consulting capabilities and applied systems thinking, alongside EPAM’s world-class engineering heritage.
Corporate Social Responsibility

EPAM’s corporate social responsibility goals are driven by our values, correspond with the United Nation’s Sustainable Development Goals, and are guided by ISO 26000 standards, which provide guidance on how businesses can operate in a socially responsible way. EPAM is committed to serving as an ethical organization and sharing our time, talent and knowledge to improve tech education around the world, giving back to the communities where we live and work to make a difference.

EDUCATION—EPAM eKids provides a fun environment to explore software engineering and pursue lifelong learning through close mentoring relationships with EPAM employees and hands-on challenges provided by the MIT-designed Scratch platform, a global community of coders.

The EPAM University Program equips students in 64 partner universities with the competitive skills they need to contribute to the global IT sector after graduation with EPAM-sponsored curriculum and industry-relevant training.

ENVIRONMENT—Through our innovative conservation solutions, we recognize the need to act with urgency to conserve and protect our environment by offsetting our current footprint and moving towards carbon neutrality.

COMMUNITY—EPAM hosts and sponsors community events, in partnership with community leaders, clients, and other organizations, to encourage social innovation and empower communities to disrupt for good.
