## B2B Booster

### Accelerate B2B Revenue Growth with This Composable Commerce Solution

EPAM's B2B eCommerce Booster enables you to get your B2B eCommerce up and running rapidly. It also gives you complete freedom of choice and makes your business ready for any change. Our accelerator is built on commercetools' extensive set of B2B features and enhances and extends them to provide you with greater functionality that better aligns to your existing strategic platforms.

#### The accelerator enables you to:

- Deliver an end-to-end commerce experience at pace — with a ready-to-go set of features and functions that can be deployed and customized quickly
- Compose a commerce stack tailored to your specific needs with the flexibility to choose and interoperate with any existing storefront solution or cloud platform provider
- Take advantage of advanced features to deliver superior sales and support experiences for your customers
- Future-proof your business by increasing your ability to respond quickly to future changes in customer demands and market conditions
