

# SAP CORE SERVICES: SAP DEVELOPMENT & INTEGRATION

## INDUSTRY FOCUS

Retail & Consumer Goods,  
Life Sciences, Utilities, Energy,  
Media, Telecom, Automotive,  
and Financial Services

We've been developing SAP custom solutions since 1997 and have addressed some of the most complex business challenges with innovative architecture, a sound approach to development and a support capability that made the EPAM solution a seamless extension of the main SAP platform. In fact, SAP has trusted EPAM as a development partner since 1997 to deliver some of the most mission critical features to its own growing platform capability. With our unique agile engagement approach and our deep vertical and horizontal insights into the SAP landscape, we can help you capture greater returns on your SAP investments.
